Public Service Commission  
Columbia SC 29210

OCT 03 2013

To Whom it may concern

Please file the enclosed petition  
in PSC docket 2008-196-E

Thank you

Leslie Miner

TO THE S.C. PUBLIC SERVICE COMMISSION AND THE GENERAL ASSEMBLY

We the undersigned, oppose the plans to build four more nuclear reactors in South Carolina. These reactors, which are estimated to cost 6 to 9 billion dollars each, will be subsidized through massive rate increases to SC citizens. This decision will add to South Carolina's already huge stockpile of radioactive nuclear waste. Because SC ranks fourth nationally in energy consumption, Duke Power and SCE&G owe our citizens and future generations wiser choices, such as investing in energy efficiency, conservation and renewables.
